## Education

**Silicon University, Bhubaneswar**

*B.Tech in Computer Science & Engineering*

**2021 - 2025**

*8.46/10 CGPA*

**Delhi Public School, Dhenkanal**

*12th - PCM*

**2019 - 2021**

*percentage - 82.4*

**St Xavier's High School, Dhenkanal**

*10th*

**2013 - 2019**

*percentage - 91.6*

## Work Experience / Training Program

**React Native — Syllogistek**

**June 2024 – July 2024**

- Developed a high-performance mobile e-commerce application using React Native, achieving a 25% reduction in load time through optimized component rendering, efficient state management and managed state with Redux.
- Implemented a dynamic address selection feature allowing users to manage multiple addresses, increasing user engagement by 15%. Integrated a secure and seamless payment gateway.
- React Native , MERN

**MERN Stack — CODEBEAT**

**July 2023 – July 2023**

- Built a fully functional e-commerce website using the MERN stack , providing a seamless shopping experience with a responsive design.
- Implemented user authentication and authorization, enhancing security and reducing unauthorized access by 30%. Developed a dynamic product catalog with advanced search and filter capabilities, improving user search efficiency by 40%. Optimized backend API endpoints and database queries, reducing server response time by 50%.
- MERN

## Projects

**Portfolio - React**

[Live Link](#)

- Implemented smooth animations and transitions with Framer Motion, enhancing user engagement. Created a responsive layout to ensure optimal viewing on various devices.
- Optimized website performance by implementing lazy loading and code splitting. Integrated a dynamic gallery section, allowing visitors to easily navigate through different projects and categories. **React, Framer Motion**

**ShopKaro - React-Native**

[Source Code](#)

- Developed a comprehensive e-commerce platform using React Native and Redux, allowing users to seamlessly add, update, and purchase products.
- Implemented state management with Redux, ensuring consistent user experience and reducing app crashes by 30%. **React-native, Redux**

**Videotube - MERN Stack**

[Source Code](#)

- Developed VideoTube, a video-sharing platform where users can upload videos, and manage their subscribers, likes, and comments, resulting in a 40% increase in user engagement.
- Integrated Firebase for user authentication and improving user experience. Implemented Redux for efficient state management, ensuring smooth user interactions and a consistent application state across various components. **MERN, Firebase**

**jay-password-generator - NPM package - React**

[Source Code](#)

- A random password generator npm package
- Install : `npm i jay-password-generator` **React, git**

## Technical Skills

**Languages:** Java, JavaScript

**Backend:** Node.js, Express.js

**Frontend:** React, React-Native, Redux, TailwindCSS, HTML, CSS, Bootstrap

**Clouds & Databases:** MongoDB

**Developer Tools:** Postman, VS Code, GitHub

## Honours and Awards

**Smart India Hackathon - 5th Position in Internal Hackathon as a Team**

**2023**

**Member Of Silicon Student Council**

**2023-2024**

**Member Of Achievers Club**

**2023-2024**
